

# Vulnerability Scan Report

Generated for: test1

Target URL: <https://web.whatsapp.com/>

Scan Date: 2025-04-30 00:50:57

## Vulnerabilities Found:

1. Command Injection (unix) in parameter cmd
2. Command Injection (unix) in parameter cmd
3. Command Injection (unix) in parameter cmd
4. Command Injection (unix) in parameter cmd
5. Command Injection (unix-newline) in parameter cmd
6. Command Injection (unix-newline-raw) in parameter cmd
7. Command Injection (windows) in parameter cmd
8. Command Injection (windows) in parameter cmd
9. Command Injection (windows-newline) in parameter cmd
10. Command Injection (unix) in parameter command
11. Command Injection (unix) in parameter command
12. Command Injection (unix) in parameter command
13. Command Injection (unix) in parameter command

## Vulnerability Scan Report

14. Command Injection (unix-newline) in parameter command
15. Command Injection (unix-newline-raw) in parameter command
16. Command Injection (windows) in parameter command
17. Command Injection (windows) in parameter command
18. Command Injection (windows-newline) in parameter command
19. Command Injection (unix) in parameter exec
20. Command Injection (unix) in parameter exec
21. Command Injection (unix) in parameter exec
22. Command Injection (unix) in parameter exec
23. Command Injection (unix-newline) in parameter exec
24. Command Injection (unix-newline-raw) in parameter exec
25. Command Injection (windows) in parameter exec
26. Command Injection (windows) in parameter exec
27. Command Injection (windows-newline) in parameter exec
28. Command Injection (unix) in parameter ping
29. Command Injection (unix) in parameter ping

## Vulnerability Scan Report

30. Command Injection (unix) in parameter ping
31. Command Injection (unix) in parameter ping
32. Command Injection (unix-newline) in parameter ping
33. Command Injection (unix-newline-raw) in parameter ping
34. Command Injection (windows) in parameter ping
35. Command Injection (windows) in parameter ping
36. Command Injection (windows-newline) in parameter ping
37. Command Injection (unix) in parameter host
38. Command Injection (unix) in parameter host
39. Command Injection (unix) in parameter host
40. Command Injection (unix) in parameter host
41. Command Injection (unix-newline) in parameter host
42. Command Injection (unix-newline-raw) in parameter host
43. Command Injection (windows) in parameter host
44. Command Injection (windows) in parameter host
45. Command Injection (windows-newline) in parameter host

## Vulnerability Scan Report

- 46. Command Injection (unix) in parameter ip
- 47. Command Injection (unix) in parameter ip
- 48. Command Injection (unix) in parameter ip
- 49. Command Injection (unix) in parameter ip
- 50. Command Injection (unix-newline) in parameter ip
- 51. Command Injection (unix-newline-raw) in parameter ip
- 52. Command Injection (windows) in parameter ip
- 53. Command Injection (windows) in parameter ip
- 54. Command Injection (windows-newline) in parameter ip

**Total Vulnerabilities Found: 54**
